

Federal SERVICE FOR SUPERVISION  
OF CONSUMER RIGHTS PROTECTION AND HUMAN WELL-BEING

Interregional Department No. 1 of the Federal Medical and Biological Agency

(isamination of territories исаианение территорий)

**SANITARY AND EPIDEMIOLOGICAL CONCLUSION**

№ 77.MU.02.426.P.000389.03.07 dated 03/14/2007

This sanitary and epidemiological regulation certifies that the products are:

An individual radiation protection device for mobile communications and microwave ovens  
"Neutronik" model MG-03

manufactured in accordance  
with TU 426350-03- 18524656-02 "Holographic protective sign of the type "Neutron radiation  
neutralizer " (Code GZZ "Neutronik")

respond (DOES NOT COMPLY WITH) sanitary rules  
(cross out what is not necessary, specify the full name of the state sanitary and epidemiological  
rules and regulations):

**Manufacturing organization**

Autonomous non-profit organization "Center for Environmental Scientific, Technical and Socio-  
cultural Initiatives "VALKON", 140180 Moscow region, Zhukovsky, Moskovskaya str., 12 of 3  
(Russian Federation)

**The recipient of the sanitary and epidemiological conclusion**

Autonomous non-profit organization "Center for Environmental Scientific, Technical and Socio-  
cultural Initiatives "VALKON", 140180 Moscow region, Zhukovsky, Moskovskaya str., 12  
office (Russian Federation) 3

**The basis for recognizing products that comply (or do not comply)**  
with sanitary rules are (list the reviewed research protocols, the name of the institution  
that conducted the research, and other reviewed documents):

Expert opinion of the Department of Non-ionizing Radiation of the Federal State Medical Center of the Ministry of Health of the Russian Federation and the Research Institute  
of Occupational Medicine of the Russian Academy of Medical Sciences, sanitary and Epidemiological conclusion No.77.FZ.19.426.P.000033.02.04, test reports of the Federal State Medical Center  
No.15/19, 16/19 dated 02/04/04

№0718749

# HYGIENIC CHARACTERISTICS OF PRODUCTS

Substances,  
indicators (factors)

Hygienic  
the standard  
(SanPiN, MDU, MPC, etc.)

The product is a self-adhesive sign containing a multilayer structure of layers sequentially arranged from top to bottom (size 30x30 mm). The MG-03 Neutronics device reduces the intensity of the electromagnetic field generated by mobile communications and microwave ovens by at least 30%.  
The device does not have an adverse effect on the human body.

## Scope of application:

A means of protection against electromagnetic fields generated by mobile communications and microwave ovens.

## Necessary conditions of use, storage, transportation and measures

safety:  
In accordance with the operating instructions

## Information applied to the label:

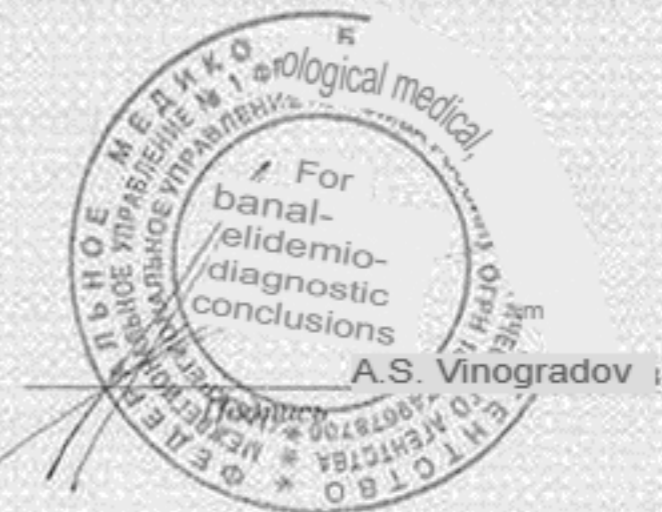

in accordance with the manufacturer's technical documentation: product name, country, manufacturer, purpose, basic properties, rules of use.

The conclusion is valid d013.03.2012.

Chief State Sanitary Officer  
(Deputy Chief State Sanitary Officer

a doctor)

SANITARY AND EPIDEMIOLOGICAL CONCLUSION

No 77.MU.02.426.P.000388.03.07 dated 03/14/2007

This sanitary and epidemiological conclusion certifies that the products are:  
An individual radiation protection device for computers and televisions "Neutronik" model MG-04

manufactured in accordance  
with TU 426350-03- 18524656-02 "Holographic protective sign of the type "Neutron radiation  
neutralizer " (Code GZZ "Neutronik")

COMPLIES - DOES NOT COMPLY) with sanitary rules  
(cross out unnecessary, specify the full name of the state sanitary and epidemiological  
rules and regulations):

Manufacturing organization

Autonomous non-profit organization "Center for Environmental Scientific, Technical and Socio-  
cultural Initiatives "VALKON", 140180 Moscow region, Zhukovsky, Moskovskaya str., 12 of  
3 (Russian Federation)

The recipient of the sanitary and epidemiological conclusion

Autonomous non-profit organization "Center for Environmental Scientific, Technical and  
Socio- cultural Initiatives "VALKON", 140180 Moscow region, Zhukovsky, Moskovskaya str., 12

# HYGIENIC CHARACTERISTICS OF PRODUCTS

Substances,  
indicators (factors)

The product is a self-adhesive sign containing a multilayer structure of layers sequentially arranged from top to bottom (size 30x30 mm). The MG-04 Neutronics device reduces the intensity of the electrostatic field generated by the PC by at least 50%. The device does not have an adverse effect on the human body.

Hygienic

the standard

(SanPiN, MDU, MPC, etc.)

Scope of application:

A means of protection against electrostatic fields generated by a PC.

Necessary conditions of use, storage, transportation and  
safety measures:

In accordance with the operating instructions

Information applied to the label:

in accordance with the manufacturer's technical documentation: product name, country, manufacturer, purpose, basic properties, rules of use.

The conclusion is valid until 03/13/2012.
