STATE SANITARY AND EPIDEMIOLOGICAL SERVICE OF THE
RUSSIAN FEDERATION
CHIEF STATE SANITARY DOCTOR

Federal Center for State Sanitary and Epidemiological Supervision of the Ministry of Health of the Russian Federation, 19a Varshavskoe Shosse, 113105 Moscow
(наименование territories, ведомства)

SANITARY AND EPIDEMIOLOGICAL CONCLUSION

No. 77.Federal Law No.19.426.P.000302.08.02 from 08/15/2002

This sanitary and epidemiological conclusion certifies that the
production, application (use) and sale of new types of products; products
imported into the territory of the Russian Federation

Neutronik mobile and radiotelephone radiation protection device model MG-03 (MG -03)

manufactured in accordance

with TU 426350-03- 18524656-02 Holographic protective sign of the type "Neutron radiation neutralizer"
(Code GZZ "Neutronik")

respond (DOES NOT COMPLY WITH) state sanitary
and epidemiological rules and regulations (cross out what is not necessary,
specify the full name of the sanitary rules)

SanPiN 2.2.4/2.1.8. 055-96 "Electromagnetic radiation of the radio frequency range".

Manufacturing organization

JSC Concern Russian Protective Technologies, 1014855 Pushkinskaya pl., Moscow.

Certificate of Registration No. 073.021 dated June 10, 1998 (Russian Federation)

The recipient of the sanitary and epidemiological

conclusion "Interstroy XXI", 123060, Moscow, Raspletina str., 11, p. 2

(Russian Federation) The basis for recognizing products that comply
(do not comply) with state sanitary and epidemiological rules and
regulations are (list the reviewed research protocols, the name of the institution

that conducted the research, other documents reviewed):

Expert opinion of the Scientific Research Institute of Occupational Medicine of the Russian Academy of Medical Sciences No. 03-01/01-189
dated 07/31/02 (attached), protocol of JSC SIC "SAMTES" No. 04-IS/02 dated 04.04.2002, protocol of the Scientific Research Institute of MT of the
Russian Academy of Medical Sciences No. 1 dated 07/22/2002, expert opinion of the Department of hygiene of non-ionizing radiation

Federal Tax Service of the Ministry of Health of the Russian Federation No. 301/19FC dated 08/06/2002

№ 0468856

Hygienic characteristics of products

Substances, indicators (factors)

The product is made in the form of a rectangular flat generator with metallized beams inside (size 30x30x0.6 mm).

The base material of the generator is polystyrene, polyethylene. The MG-03 Neutronics device reduces the density of the EMF energy flux (by 1.8 times) created by a wearable cellular communication device. The device does not have an adverse effect on the human body.

Hygienic the standard (SanPiN, MDU, MPC, etc.)

Scope of application:

A means of protection against electromagnetic fields created by wearable means of cellular telephone communication.

Necessary conditions of use, safety:

In accordance with the operating instructions.

Storage, transportation and measures

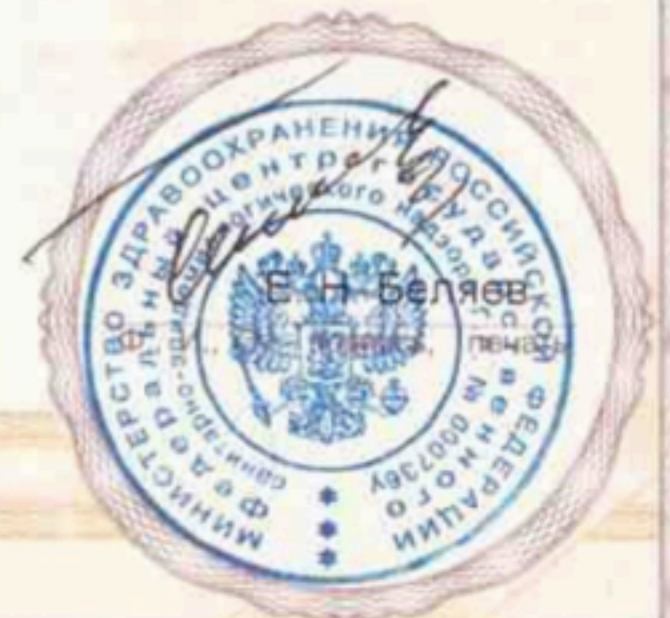

Information applied to the label:

Product name, country, manufacturer, purpose, basic properties, rules of use.

The conclusion is valid until 08/15/2003.
